Zooid

Design by Albi Serfaty and Benad Dar

The Zooid represents a new era for our atelier, and new collections to come established on Aqua Creations' renewed aesthetic values. The light is perfectly distributed through the geometric shapes and creates a delightful interplay of soft fabric, robust construction, light and shadows. The Zooid as well as the Diamond Pyramid Collections are highly customizable.

Mino

Design by Albi Serfaty and Benad Dar

The Mino Collection's modernist forms complement Aqua's Silk Lighting Collections adding streamlined, geometric shapes. Silk is sculpted over polycarbonate shells creating lightweight structures that may function as space dividers with Mino floor or lighting wall constellations with Simon Says.

Mino Collection in Dark, Silver, Gold, Shell, Flame and Grass silk

Mod

Design by Aqua Creations

The Mod Collection consists of modular tiles that may also be used as singular fixtures. The modular designs allow innumerable wall or ceiling illuminated patterns, in compositions and scales according to each individual's desire and need. The collection is extensive, offering a variety of options united by a geometrical yet organically sensual appeal.

Forever Young in Salone Del Mobile, Milano

Nara

Design by Aqua Creations

The Nara Collection of playful rounded squares derives its name from the ancient Japanese capital, which was built in a grid-like pattern. The classic square is always chic and has an elegant effect on any room. This particular design introduces a combination of hand crafted silk with plain geometry. The Nara lamps come in multiple sizes as ceiling lights, wall fixtures and pendants. They may be placed as singular lamps or as a grouped installation.

Stand By

Design by Aqua Creations

The Stand By Collection of perfectly round shaped discs feature a combination of pure simplicity and glamour. Stand By elegantly radiates brilliance across large areas and adds a unique refinement to any space. The multiple sizes and colors of the Stand By make it a versatile and adaptable contemporary lighting collection. They come as ceiling lights, wall fixtures and pendants. They can be placed as a singular lamp or as a grouped composition.

Sunsa

Design by Aqua Creations

The Sunsa chandelier collection suggests visions of radiant luminous clouds, or leaves over water. The combination of the various shades creates a magnificent cellular structure that showcases the strength of the whole, representing both serenity and vitality. This chandelier is highly customizable to fit a specific space.

Jewel

Design by Aqua Creations

The Jewel collection of elegant and lyrical suspended kinetic mobiles is intended for large spaces. The mobile structures allow the creation of variable compositions of shades that sway as if blown by a breeze. Their movement creates a magical environment. The pieces in this collection are customizable including single and multiple shade options to fit a specific space.

Molecules

Design by Albi Serfaty in collaboration with Origami artist Ilan Garibi

The Molecules Collection's origami shade begins with a blank sheet of paper that is folded and sculpted by hand into tessellations of individual molecules, with no cuts. The paper perfectly diffuses the light and easily sustains the folding and is complemented and contrasted by the mahogany wood structure. The lamps are powered by digitally dimmable LEDs, operated and controlled by touch. In Aqua's tradition, natural materials and artisanal manufacturing interact with technology; the result is elegant and luxurious lighting.

Mimosa

Design by Aqua Creations

The Mimosa collection was inspired by neurons and while the shape is organic it is contemporary and expresses subtleness and lightness. The shades are made from a laser cut, galvanized metal structure sprayed with clear polymer, resulting in a white membrane that perfectly distributes the light. The shades are sculpted by hand allowing some variations to occur from shade to shade. Mimosa is a highly customizable collection and may be adapted to fit spaces of any size.

Apaya

Design by Aqua Creations in collaboration with Irit Dolman

The Apaya Collection celebrates the inherent qualities of natural color and structure; wool becomes a sculptural carrier of light in a uniquely aesthetic way. The pieces are all hand made using ecological and environmentally friendly materials. As it combines ancient wool felting techniques with modern lighting technology, the Apaya Collection safeguards heritage whilst re-inventing its future.

Live & Let Dye

Live & Let Dye, a Limited Edition of Aqua Creations' designs, reveals the brand's latest innovation; unique silk printing. Offering the possibility of a contemporary take on the brand's most classical signature pieces such as the Morning Glory. Lamps are either embellished with graduations of colour or unique photography, by Albi Serfaty, which are digitally printed before pleating on our signature Tussar silk, creating a new form of expression. No lamp is the same, making each piece completely unique and part of the "Live & Let Dye" limited edition.

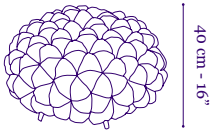
Anana Poof

Custom Anana Poof with a combination of different textured fabrics

Anana Collection

The Anana poof and Bench are shaped out off fabric covered pods tailored to form a 3 dimension surface. The collection is offered in a range of fabric colors, or customer's own material may be used. Fabric sample testing is required for that.

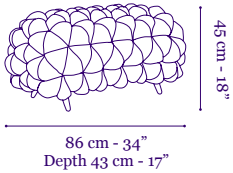
*Custom sizing and shapes available.



Anana Bench

Anana Bench with a combination of Ultrasuede fabric colours.
Please inquire for available colour options.

Custom Anana Benches,
Kerquelen Shoe Store,
New York, USA



Gladis
Love Seat

Gladis Love Seat in Conan 29- Berry colour fabric
Please inquire for available fabric upholstery options.

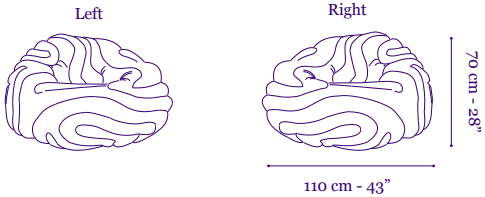
Gladis Collection

Originating with the idea of one's own topography, the special hand stitched upholstery is reminiscent of the fluid forms of nature. The collection is offered in a range of fabric colors, or customer's own material may be used.

*Custom sizing and shapes available.

Gladis
Lounge Chair

Gladis Lounge Chairs in Conan 17- Mineral colour fabric

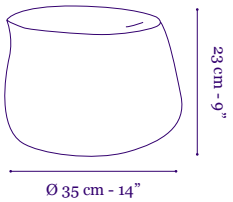


Custom Apaya Floor and Table Lamps, custom Gladis Lounge Chairs, Shasta Stools and a custom Satala Hammock in a private residence

Shasta
Table

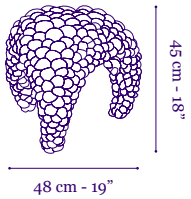
Shasta Ceramic tables in White and Black finish.

Shasta has a simple and minimalistic aesthetic.
The organic shape, smooth contours and clean lines of this sculptural element were created in collaboration with ceramic artist Marcelle Klein



Bubbles
Stool

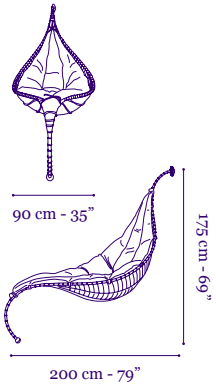
Bubbles is a unique stool upholstered with a hand stitched, 3 dimensional silver lycra garment. It is a unique furniture piece available in one fabric / color option.



Satala
Hammock

Satala Hammock
Please inquire for available fabric upholstery options.

The unique design, supported on one leg, allows the user to rock themselves once reclined. Suitable for indoor or outdoor use where sheltered, the Satala is made of galvanised metal painted in a bronze shade with a range of fabric colors or customer's own material used for the removable down-filled cushion.



Satala Hammock with Custom fabric

Custom Gladis Lounge Chairs, Private residence

This is Aqua.

Aqua Creations is a combination of artistic values, aesthetics and quality. Our atelier creates design objects that function as art pieces. The lights are hand made using advanced and sustainable lighting technology. Our upholstery is hand worked and finished like haute couture. The Collections are exclusive and purchased only from Aqua Creations and its worldwide partners.

We started the atelier in 1994 working from home. Today, one can see our creations all over the world and at Aqua Gallery, our flagship store on 78 Grand street in SoHo, New York.

We remain loyal to the same values as when we started. All our pieces are handmade to order by skilled artisans who craft each piece individually, with utmost care and respect for our heritage.

Aqua Creations is committed to design and to the production of site specific installations of any scale. We answer the challenges presented by our clients and their designers, working in partnership to realise solutions that turn dreams into reality.

It is a joy to see Aqua being a part of many commercial and residential projects world wide and we commit ourselves to pursuing our goal to create the finest products.

Albi Serfaty,
Founder and Creative Director

Lighting Technology

Aqua Creations pioneered the implementation of electronic ballasts with Digital Addressable Lighting Interface (DALI) which has a dimming range from 1 to 100% allowing them to match the diverse requirements of both commercial and residential projects. Computer controlled Light Management System may be used instead of dimming devices and in this case all compatibility issues should be negotiated with Aqua Creations and reflected in the order.

Aqua Creations offers several types of DALI ballast control:
1. Touch dimming and standard dimming control
2. Battery free wireless remote control
3. Computerized control

Aqua Creations successfully employs the above technologies in all regions of the world providing solutions compatible with local lighting industry standards. Aqua Creations also implements well known dimming types such as 1-10V control and phase dimming; leading and trailing edge.

Some luminairies require screw-in, self-ballasted bulbs and some require plug-in bulbs with an electronic control gear (ECG). Aqua Creations uses fluorescent bulbs in its silk lighting designs. These bulbs create less heat than incandescent bulbs, are highly efficient and have a lifetime of 10,000 to 12,000 hours. For optimal light diffusion, please use recommended bulbs only.

*Please Note:
As all lamps and furnishing are handmade the measurements provided in centimeters and inches have a +/- 2% tolerance.

Dimming Options and Recommendations

Dim Type A is a phase dimming for dimmable bulb or dimmable ballast with 2 wires only.

Dim Type C is DALI dimming and requires 5 wires (line, neutral, ground and 2 control wires which are uni polar) allowing dim control from a computer or from a push button. Suitable for smart home control systems, this kind of dimming is sometimes called Architectural Dimming.

Dim Type E is similar to Dim Type C but with a wall mounted remote control. Aqua Creations provide the receiver and transmitter; no control wires required. Suitable for places with 3 wire electrical system.

Dim Type J requires 5 wires but dimming is provided by changing control voltage, 1-10v with a dimming potentiometer.

Dippa Pendant combination in Orange silk

Silk Lighting

The monumental scale of lighting sculptures combined with the exquisite use of silk fabric has become Aqua Creations' trademark over the years. The result is sophisticated tailored luminairies that reveal a new dimension in lighting.

All shades within the Silk Lighting Collections are made of hand dyed, treated and crushed silk that is resistant to mold and fire. The silk is sculpted over a metal structure.

As our fabrics are hand dye, hues may vary slightly.
When lit, the silk colors change with use of warm or cool white bulbs. In order to create a contemporary atmosphere we use warm white, 2700-3000 Kelvin (equivalent to OSRAM 830) bulbs for the colors: Cream, Red, Flame, Rust, Orange and Curry.

Neutral white, 4000 Kelvin (equivalent to OSRAM 840) bulbs, are recommended for the colors: Redwood, Sand, Shell, Gold, Coal, Dark, Stone, Silver, Smoke, Turquoise and Grass.

Chinchilla

Pewter

Griffin

Protection and Care Instructions

Protective Silk Coating: Special commercial grade resin coating is available upon request. It is highly recommended for pieces intended for public installations or areas of humidity or smoke. This coating does not change the appearance of the silk, but strengthens the texture.

Silk Lighting Care Instructions: For optimal maintenance vacuum the silk frequently (make sure the vacuum cleaner is at low suction and use a clean attachment) and avoid direct sunlight or smoke. To remove stains use upholstery foam cleaner (as these vary from country to country, testing the product on a hidden spot first is recommended). In case of heavier dirt use a moist sponge and make sure to move it along the crushed line of the silk. Please do not clean coated lamps with water.

Please Note: any good quality silk fibers weaken when exposed to sun and natural dyes may fade. Hence, avoid direct sunlight on the silk lights.

Apaya Lighting Care Instructions: The merino wool and silk sleeve should be dusted regularly and can easily be removed for dry cleaning.

Mimosa Lighting Care Instructions: The polymer covering the galvanized metal structure of the Mimosa shades is best cleaned by regular dry dusting with a feather duster or a dry cloth.

Molecules Lighting Care Instructions: The origami lamp shades in this collection are made of the best quality origami paper that easily resists environmental influences and changes. We recommend regular dry dusting with a feather duster or a very soft (paint) brush in order to maintain the appearance and quality.

Upholstery Fabric Care Instructions: Regular cleaning is important in order to keep the upholstery looking its best and to prolong its life. Dust and dirt wear down the textile. We recommend regular vacuum cleaning and removing non-greasy stains using a moist cloth or sponge. Do not rub the upholstery fabric too roughly.
