Precious Design Projects is a collection of acclaimed projects brought to life using Terzani product, tailored to the aspirations of architecture and interior design studios. These exclusive installations were customized by our technical team utilizing innovative and refined lighting systems. The process is based on constant research, balancing our rich tradition, experience, and innovation. The select Terzani projects elevate the surrounding space creating exciting and sinuous geometrics, bringing a new vision to more traditional scenarios and atmospheres of light.

Atlantis, a Precious *Wave*.
design Barlas Baylar

Seemingly alive, Atlantis shimmering light creates a vibrant source of energy. Its mesmerizing, organic effect is created by hundreds of illuminated lengths of draped, nickel chain. Like water in the ocean, Atlantis chains appear liquid, cascading over its gloss nickel bands and falling down towards the abyss before turning back into itself. Atlantis is composed of almost three miles of chain, meticulously hand-crafted by master Italian artisans.

Mizu, Flowing *Light*.
design Nicolas Terzani

Inspired by the tranquil and mesmerizing light refractions created by water, Mizu is customizable pendant light from Terzani. Like water droplets, no two Mizu are alike, each crystal shape is unique and made meticulously by hand. Using only the clearest crystal, Mizu perfectly emulates water's refraction of light, casing amazing patterns around the room, reminiscent of flowing water. Also available in gold leaf and silver dust.

Argent, a Silver *Cloud*.

design Dodo Arslan

With this suspension light, designer Dodo Arslan creates a shimmering, silver cloud. Argent consists of metal discs that have been meticulously joined by hand by Terzani craftsmen into clusters. Once lit, the multiple, angled surfaces of the discs emanate a soft, shimmering, white glow.

Doodle, Freehand *Design*.
design Simone Micheli

We no longer march in a straight line. Our lives are dynamic, intertwining collections of relationships, experiences and journeys. Reflecting the fluidity of our generation, designer Simone Micheli has created a new, contemporary light for Terzani, Doodle. Like us, each Doodle is unique, each pendant is handcrafted by artisans to resemble a randomised path. And, to give us control over the journey we want to take, each LED bulb can be placed anywhere on the light, not only reflecting the choices we make in life, but giving Doodle a special flexibility. Design Simone Micheli.

Soscik, Classic Form *Modern Look.*

Location | Westport, Connecticut

Soscik

Project | Private House
Interior Design | Gilles Clement Design
Location | Westport, Connecticut

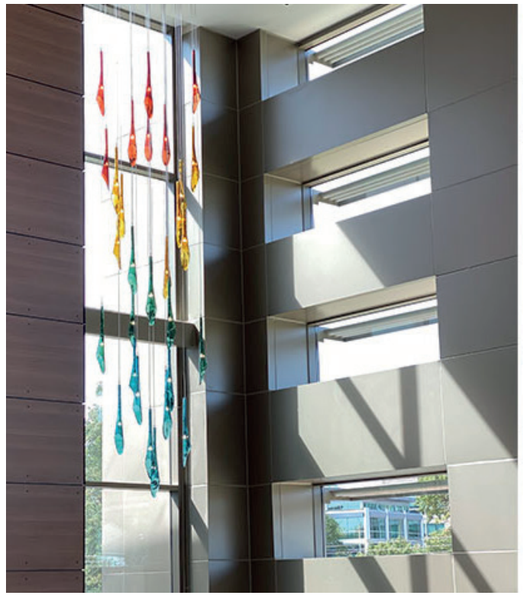
Soscik, Classic Form *Modern Look*.
design Nicolas Terzani

Reinventing the classics. With Soscik, Terzani combines traditional, artisan techniques with cutting edge technology to give the traditional chandelier a modern update. Over the plated frame, Soscik creates a dramatic and romantic effect, while still being able to compliment today's modern luxury. Available as a chandelier or a ceiling lamp, Soscik proves that modern design does not have to sacrifice luxury.

Calle, Perennial *Elegance*.



Calle

Bespoke product

Project | Tanner Health Pavilion
Interior Design | Rhea Jeanne Starnes | CDH Partners, Inc.
Location | Georgia, Usa

Calle, Perennial *Elegance.*

design Draw

At Terzani, we spend countless days searching the globe for talented new designers, but sometimes they find us. Such is the case with the young designers Luca Martorano and Mattia Albicini (Draw studio) who approached us with the design for Calle, a fantastic new light we instantly fell in love with. It howcases our skill at crafting crystal to take the material to an exciting, modern place. Luca and Mattia worked with our raftsmen to create a slender inverted flute of crystal that, like the calla lily it mimics, can be grouped into stunning bouquets of light.

Shar Pei, Lighthearted *Luxury*.

Shar Pei
Project | Private House
Interior Design | Fedorova Architects

Location | Moscow, Russia

Shar Pei, Lighthearted *Luxury.*
design Luca Martorano + Mattia Albicini

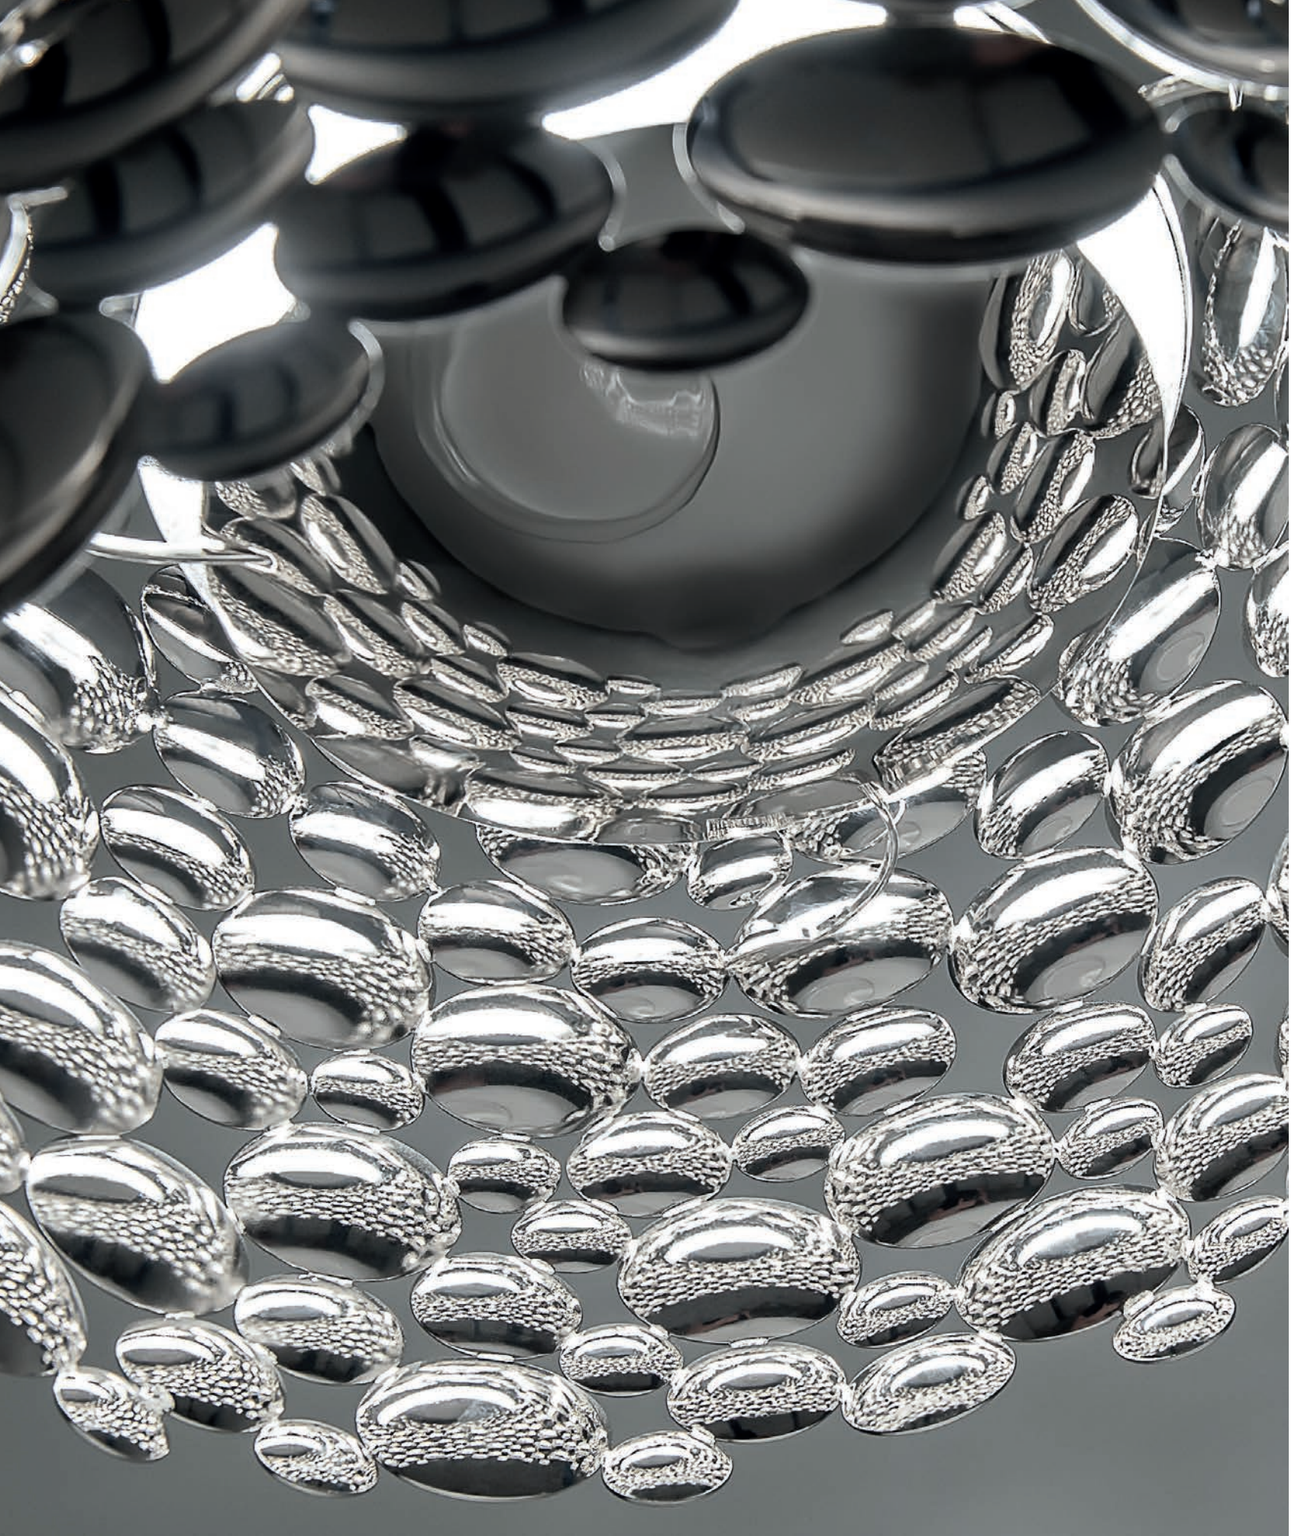
Shar Pei, employs sheaths of “wrinkled” crystal that take their cues from shar pei puppies. The “cute factor” is replaced by a stunning and elegant display created by the projection of light through the undulating crystal. These lights can also be grouped together to create a “pack” of lights.

Stream, Iridescent *Light*.

Stream
Project | Hotel Zoo
Location | Berlin, Germany

Stream, Iridescent *Light*
design Christian Lava

A stunning design from Christian Lava, Stream is an impressive presence in any room. Stream's design exploits the physical characteristics of the materials used to envelop a room in a unique, immersive light. Here, an elegant thin metal chain appear to flow down from the undulating, nickel-plated frame. These cascading tiers project a streaking, yet tranquil, shadow throughout the room.



Anish, Playing *Spoons*.

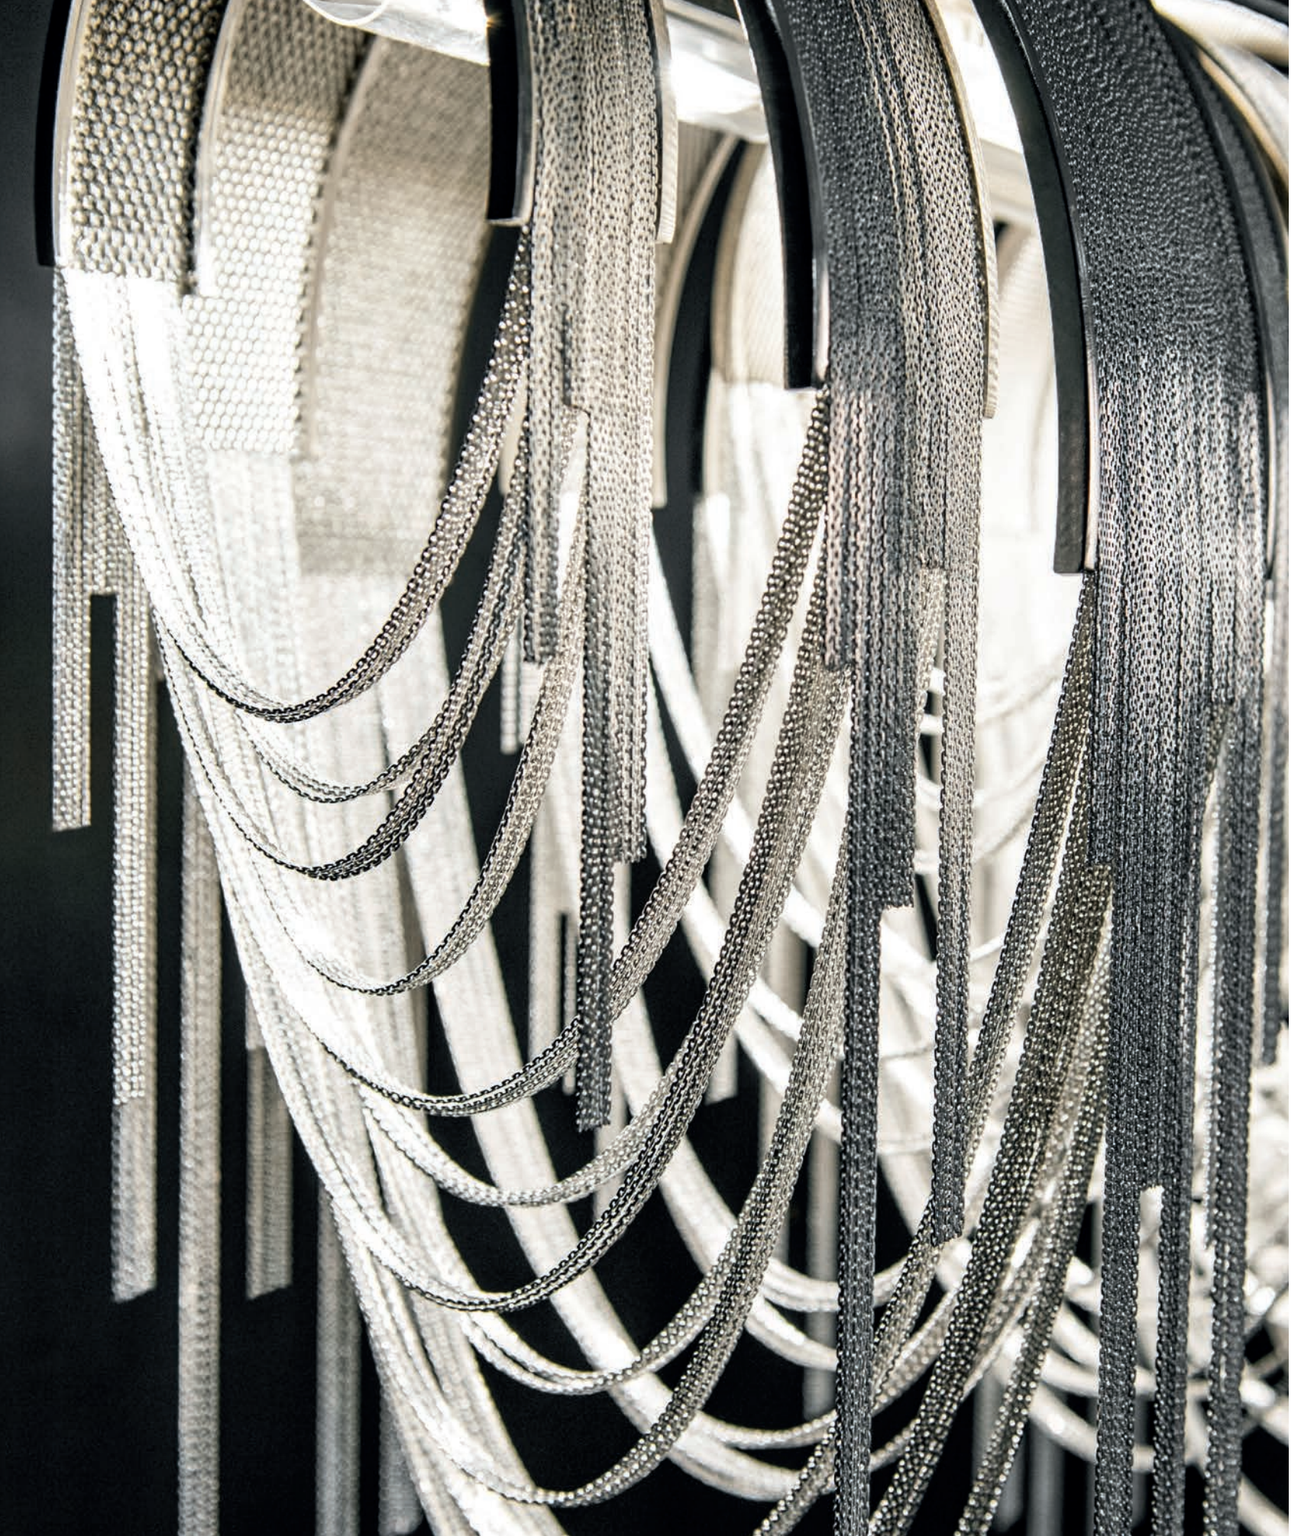
Anish
Project | Futuristic Architecture
Location | Italy

Anish
Project | Futuristic Architecture
Location | Italy

Anish
Project | Private Residence
Location | Italy

Anish, Playing *Spoons*.
design Dodo Arslan

A playful study of reflection, the idea for Anish was born when designer Dodo Arslan, while playing with his daughter, became fascinated by the almost infinite reflections spoons unleashed due to their concave and convex surfaces. Taking this idea to a larger scale, Dodo took inspiration from Italian flatware manufacturer and created a pendant composed of a range of spoons from the smallest teaspoon to serving spoons which magnifies the reflective quality of this shape. The result is an installation that creates a “galaxy” effect of seemingly endless light.



Volver, Breath of new *Light*.

Volver, Breath of new *Light*.
design Design Studio 14

At Terzani, we are fortunate to work with some of the brightest young stars in Italian design. For Volver, designer Diego Bassetti and architect Andrea Panzieri of Studio 14, protegés of Bruno Rainaldi, applied their multidisciplinary approach to create Terzani's first LED suspension light. This geometric design combines thin nickel chains with the latest in LED technology to create a light that is both elegant and modern. A breath of new light, Volver melds technology and art to achieve a new level of luxury. Design Studio 14.

Location | Vancouver, Canada

G.r.a., gyrating Romantic *rings of Light.*
design Bruno Rainaldi

This clean, precise form is the result of hours of labor by our artisans, who meticulously weld each ring together. G.r.a. is a delicate, refined pendant whose intricate shape belies its romantic glow. Available as an oval or a sphere, and finished in nickel or gold, G.r.a. serves as an elegant, unobtrusive complement to any room.

TERZANI
LA LUCE PENSATA

All products in the Terzani collections are inspired by a return to nobel artisan traditions. Every object is carefully created using craft techniques and for this reason certain details may vary from product to product. These variations are not imperfections but characteristic peculiarities of the production process. Terzani reserves the right to modify its products in order to improve its features. The reproduction on paper of products may result in a misrepresentation of some colors. Measurements are in cm and inches. For updated technical data please refer to our current price list or our website. For updates on etl please visit our website or call our customer service. Etl certification may be available on request when not listed. All products are CE certified.
